Mission

The mission of Maryland Correctional Enterprises is to provide structured employment and training activities for offenders in order to improve employability upon release, to enhance safety and security, to reduce prison idleness, to produce quality, saleable goods and services, and to be a financially self-supporting State agency.

- MCE is the premiere rehabilitative program in Maryland, providing an established continuum of care for our offender population incorporating education on the inside and employment on the outside.
- We provide structured training and employment to thousands of offenders across the State, instilling transferable job skills, a positive work ethic, and a sense of accomplishment.
- Our comprehensive job skill training programs provide work conditions that emulate the private sector as closely as possible.
- MCE CARES program provides services to men and women to help gain employment upon release, as they transition back to become contributing members of society.
- The combination of these essential factors, contribute towards lower recidivism rates or the likelihood of reincarceration within three years of release. Offenders with MCE experience recidivate at less than half the rate of the general DOC population.

Fresh Air Facts

Green and Clean...

MCE is committed to interconnect with our community and the environment to offer more responsible choices to our customers. By providing a variety of green products, we will strive to make a healthier environment, which will increase productivity by creating clean indoor air.

Environmental Responsibility
Our mission is to raise awareness and educate consumers on the sustainability of utilizing our quality certified products, which ensure a healthy and environmentally friendly place to work and live.

Improving Indoor Air Quality
MCE can offer a variety of superior green products including seating, systems furniture, tables, and accessories that eliminate the off-gassing and reduction of hazardous toxic materials.

GREENGUARD Certification
As a recognized member of the GREENGUARD Program, many of our products have been rigorously tested and certified under the GREENGUARD Indoor Air Quality program. This certification program was formed to rate the chemical emissions performance for low emitting products for interior environments.

Program Partners

- MCE and GREENGUARD Environmental Institute working together to keep our natural resources green and clean for today and for the future.
- GREENGUARD Environmental Institute is an industry independent non-profit organization. They establish acceptable indoor air standards for indoor products, environments, and buildings.
- The GREENGUARD Environmental Institute organization meets the LEED's (The Leadership in Energy and Environmental Design) certified rating system.
- Visit www.greenguard.org to obtain your printable product certificate.

"I was very impressed with the professionalism of Maryland Correctional Enterprises and their ability to support our efforts in providing quality products that are "Green" certified, in our recent renovation of the Plummer House, a facility located in the Jug Bay Wetlands Sanctuary component of the Chesapeake National Estuarine Research Reserve. Together we will continue to educate consumers on issues related to sustainability and raise awareness of the positive environmental impacts our consumer choices can have."

Bart Merrick,
DNR Education Coordinator, Chesapeake Bay
National Estuarine Research Reserve
